

Jeppesen FliteSupport Services

Customized international trip planning, dispatch and fueling solutions available when you need them.

Jeppesen FliteSupport Services provides customized and flexible solutions to meet your international trip planning, dispatch and fueling needs. Our services are tailored to each operator's policies and government regulations. Our team of experts will work with you to build and execute a solution that can enhance, optimize and streamline your operations.

Jeppesen's San Jose, California ITP Ops Center.

Our 24/7 team of experts and complete services augment your unit's capabilities and make your worldwide operations more efficient.

Our team of experts performs the dispatching and international trip planning tasks in coordination with your operations staff to ensure timely communications and seamless execution of your flights.

Look what Jeppesen FliteSupport Services offers.

International Trip Planning

We provide a full-featured ITP service that can handle all your trip planning needs, including:

- Itinerary and route planning, flight plans, filing, charting, weather and NOTAMS
- Overflight and landing permits, diplomatic clearance assistance, airfield slots, customs notifications, eAPIS
- Aircraft and cargo handling, fuel
- Passenger coordination, hotel, ground transportation, catering, travel services, security
- EU ETS, concierge services and more

Jeppesen Handler Network – We evaluate and select the best handlers in the business with world-class service and established credit. Now your crews can focus on flying and not the logistics.

We operate ITP centers around the globe to pass on to our customers' local expertise and continuity of service.

- Jeppesen ITP services can assist you at locations where you don't have a government contact
- Our established credit helps you to avoid carrying cash for airfield service payments

We provide convenient Web portal access for secure, up-to-date access to your mission information and status.

Dispatch

- Flight planning and dispatching according to your policies and governmental regulations
- Complete ATC coordination and in-flight assistance
- Best-in-class service from experienced dispatchers who are experienced and hold FAA Part 121 dispatcher certificates
- Dispatching that builds and tracks your flights/missions from inception to final execution, providing process standardization and review through dispatch methodology
- Customer-specific Web access allows for tracking and access to flight documents and status:
 - View all of your flights from a single page
 - Quickly download, email or fax your mission information, from a central location to anywhere in the world
 - Your aircrew and operational personnel can easily share information with Jeppesen dispatchers

Fuel

- Jeppesen partners with World Fuel Services to provide cost efficient fueling at over 3,000 airfields around the world
- Gain the pricing power of the world's largest reseller of fuel
- Fuel dispatch with online ordering
